

AL-4000

Specifications

	Number of cavity		4
	Theoretical capacity	BPH	3600*
Container	Max. container volume	liter	2
	Max. outside neck	mm	38
	Max. container diameter	mm	105
	Max. container height	mm	330
Power	Rated power	KW	63.5
	Max. heating power	KW	60
Compressed air	Operating pressure	MPa	0.7
	Operating air consumption	L/min	1600
	Blowing pressure	MPa	3.5
	Blowing air consumption	L/min	6500**
Chilled water	Water pressure	MPa	0.3
	Temperature for mold cooling	°C	10-12
	Water flow for mold cooling	L/min	60
	Temperature for machine cooling	°C	20
	Water flow for machine cooling	L/min	40
Machine	Main body measurement (LxWxH)	m	3.6x2.0x2.2
	Weight	Kg	5500

* Depends on the container design. ** Depends on the container design and operating condition.
 This machine has 3 heating zones, 10 layers heating lamps.
 Servo motors is optional at extra cost upon request.
 Specifications are subject to change without notice.
