

❖ **Main Components**

| <b>Description</b>       | <b>Brand / Origin</b> | <b>Standard machine</b> | <b>CE machine</b> |
|--------------------------|-----------------------|-------------------------|-------------------|
| AC contactor             | SCHNEIDER / France    | YES                     | YES               |
| Infrared thermo detector | SCHNEIDER / France    | YES                     | YES               |
| Circuit breaker          | SCHNEIDER / France    | YES                     | YES               |
| Motor protector          | SCHNEIDER / France    | YES                     | YES               |
| Pre-blow valve           | PARKER/Switzerland    | YES                     | YES               |
| One-way valve            | PARKER / Switzerland  | YES                     | YES               |
| High pressure muffler    | SMC / Japan           | YES                     | YES               |
| High pressure valve      | SMC / Japan           | YES                     | YES               |
| Exhausting valve         | SMC / Japan           | YES                     | YES               |
| Low pressure valve       | FESTO / Germany       | YES                     | YES               |
| Solenoid valve           | FESTO / Germany       | YES                     | YES               |
| Cylinder                 | FESTO / Germany       | YES                     | YES               |
| Swing valve              | FESTO / Germany       | YES                     | YES               |
| High pressure reducer    | EWO / Germany         | YES                     | YES               |
| PLC                      | mitsubishi / Japan    | YES                     | YES               |
| Display monitor          | HITECH / Taiwan       | YES                     | YES               |
| Frequency inverter       | SCHNEIDER/France      | TAIDA/TAIWAN            | YES               |
| Voltage regulate modular | CHINA (CE marking)    | YES                     | YES               |
| Heating lamp             | CHINA(CE marking)     | YES                     | YES               |
| Transformer              | CHINA (CE marking)    | YES                     | YES               |
| Proximity switch         | OMRON/ Japan          | YES                     | YES               |
| Limit switch             | OMRON / Japan         | YES                     | YES               |
| Power supply             | SCHNEIDER / France    | -                       | YES               |
| Safety relay module      | SCHNEIDER / France    | -                       | YES               |
| Safety interlock switch  | SCHNEIDER / France    | -                       | YES               |
| Alarm light              | CHINA (CE, 4-color)   | -                       | YES               |
| Main power switch        | SCHNEIDER / France    | -                       | YES               |
| Safety door switch       | OMRON / Japan         | YES                     | -                 |
| Emergency stop relay     | SCHNEIDER / France    | YES                     | -                 |
